Timely Arrival of the British Man-of-War Forward Brings Rescue to the Survivors

BALTIMORE M1 Oct 2 -The details of the riot at Nalassa on the 24th uft, have just come to hand in the shape of a ro-port of Superintendent Smith, of the Navassa Phosphate Company
On the morning of September 14 the negroes arose in insurrection and killed four officers, viz Thos Poster, Jos Fales, Jas Mahon and Wm L Shea We had no warning of such an action At noon the men congregated in front of the superintendent's house and refused to work. When her Jones attempted to arrost one of the ringleaders he was knocked down and in a few minutes a howling made surrounded him. He managed to get to the house where the other officers had sought shelter. We took refuge in the upper story of the superintendont's house and opened fire on the mob which was now throwing stones against and into the house from every direction as well as shooting at any one of us who happened to be seen by them That battle lasted about three hours. with an occasional negro wounded when we were startled by the explosion of a dynamits bomb, which they had thrown

tinued roar of dynamite. These bombs were exploding around and through the house on the porches and in the rooms adjoining the one in which we had sought shelter The negroes were behind cars drawn up in front of the house and the trees, tanks and many buildings near by af forded them protection from our occa-sional shots. Shortly after 4 p m they broke into the dynamite magazine, and

got a fresh supply of dynamite By this time the explosions of dynamite had become so frequent and uninterrupted that, knowing it was their in-tention to blow us into eternity, we deeided to leave the house and endeaver to reach the officers' quarters and make another stand, but we had not got twenty feet away before they saw us and at-tacked us from every direction with axes, knives rocks, razors and clubs at the same time uttering fiondish yells that a Compache Indian would have envied Lach man was soon overtaken and disarmed Mr Foster was at once butchered with knives Mr Fales was chopped to pieces with an axe Poor Bill Shea was shot with n revolver Those of us whose lives were and ed owe our oscape to the intervention of friendly negroes who hid us in a little building until the excitement had somewhat subuntil the excitement had somewhat sub-sided, and while they were engaged in looting, robbing and pillaging the build-ings and all property owned by the of-ficers was boing rified About six o'clock some negroes came

to our building in which we were hiding and told us to come up to the messhouse and get some supper and we should not be harmed while going to and fro We had not proceeded over thirty feet before one of the devils placed a revolver within a few inches of James Mahon's face and fired and then shot him through the heart after he fell On the 20th inst Her Majesty's ship Forward, a British man-of-war, came to our assistance. To Gentlemen Who Shave

On and after Sunday, September 29th, the price for shaving on Sundays will be reduced to 10 cents. I make this reduc-tion for the benefit of my customers, but will give you my reasons for so doing I have noticed that some of my old patrons who can ill afford to pay 15 cents, come in on Monday morning to get shaved, much to their inconvenience. Furmer veterans of the war say. You surely veterans of the war say 'You surely would not charge an old comrade in the army 15 cents for a shave?" To avoid all such causes of dissatisfaction the reduc tion is made. It is true that I always have taken in more money when I charged 15 cents, than when I charged 10 cents on Sundays. It is also true that it is customary to charge 15 cents on Sunday un almost all towns and cities of the United States But I am unwilling that there shall be any cause for dissatisfac tion among any of my customers. Hence the reduction is made sept28 dtf. FRED NORMAN

are ratified by good majorities. There were not so many votes polled; in North Dakota as were expected, but in South Dakota the vote is enormous, probably 80,000. In Montana the vote was smaller than at the election last fall, when it reached 40,000, but with the new Australian system of voting not less than 8,000 votes were disfranchised, on account of the size of the districts. In Washington a severe storm raged last evening, and returns were quite meager.

The question of the location of the various state capitals entered largely into the election, and in some degree affected the results. In several of the states. notably Washington and Montana, the Democrats attempted to capture the legislatures by swapping off everything for votes for their legislative candidates. It is not likely, however, that the game successibile. The latest returns possible the election

Eastern lines. THE way in which the Democrats are

'getting together" on the tainff question is a curious and sagggestive study. In lows they are for free trade, in Virginia they are for protection, and in Ohio they are on the fence, thus adapting their views to combeting circumstances in different localities, regardless alike of logic and of honesty.

The Chicago Journal has caught the

infection, and is discussing the names of the army of Republicars in Illinois fit to be chosen for United States Senator by the next Legislature. We had supposed that the Democrats hold a patent on the plan of electing a senator a year or two in advance of the time fixed by the state for attending to that duty, and failing to accomplish it when the tane comes. The most important thing to do now is to so manage the aff are of the state that there will be so question of the ability of the party to elect the sensior when January, 1891, comes around. The Republicans have control of the state of Hinnois now. him, and then to crown the woss of the and can easily maintain their supremacy by proper management. But they can just as easily lose at by arraying the adherents of the various leaders against each other so long in advance, and making of the party a lot of hostile camps for the purpose of boosting some particular man into a six-year job. Let wise counsels prevail, and keep the various candidates in the background until the proper time arrives. If the Republican party exercises one-half the sense it posseeses it cannot be dislocated from power in Blinois for another generation. If it loses sight of its principles in the mad struggle for office it can fritter away its strength without half tiving. The offices are among the values e things that a party has to dispose of, when it is in the majority, but it is possible for the offices to become a source of real weakness to the party that has them in hand unless their distribution is accompany 1 by good sense and sound indigment. The senstorship is one of the things that on be safely held in abeyance until the eight Dr. Bull's Cough Syrup than all other time comes. There is only one quation medicines together. It surely must be before the Republicans of Itlines this year, and that is to so manage party other simular affections. affairs as to make a Republican le dature in 1891 a certainty. The Public Finances.

Washington, Oct. 2.—The public debt statement issued from the Treasury Department vesterdur shows a decrease in the debt amounting to \$13,685,004 during the past month of September. The total debt less cash in the treasury is \$1,070, 055,530, and of this amount \$862,915,592 is bonded indebtadness. The net cash or surplus in the treasury is \$46.544,428, or about three millions more than a month ago. National bank depositories hold \$47,746,282 of Government funds, or half a million less than on Soptember 1. The gold fund belauce during the past month has increased nearly nine millions, and now amounts to \$188,196,123; and the silverfund balance, exclusive of 46,000,000 trade-dollar builton, has decreased nearly eight millions, and now amounts to \$11.667,125.

Government receipts during September aggregated \$31,416,29), or about four hundred thousand dollars less than in September, 1883. Customs receipts during the past month were \$17,778,957, and internal revenue receipts \$11,418,568. Receipts from all sources for the first quarter of the current fiscal year aggre-gate in round numbers, \$69,500,000, or about half a million less than during July, August and September, 1500 Expenditures during the first three

months of the current fiscal year aggregated \$91,819,090, against \$77,867,599 during July, August and Septomber, 1885 The increased expenditures in 1889 over the expenditures of the first quarter in 1888, is accounted for in the following items: Rivers and harbors, \$5,200,000; military establishment, \$1,965,000; construction and miscellancous, \$900,000; for Indians, \$326,000; deficiency in postal revenues, \$1,096,009; for pensions, \$10, 938,000; total, \$18,655,000. Deduct \$1,675. 000 interest and premium paid, loss in 1889 than in 1888, and it leaves a not increase amounting to \$16,840,090. This increase is subject to further reductions when the full repayments for the quarter ending September 30, 1889, shall have been received; yet the payments from the treasury are larger at fully time than in the same period for 1888, because of the smaller drafts upon the treasury for funds last year, while awaiting the passage of the large appropriation bills.

Commander Shapard's Mistake.

Washington, Oct. 2.—The change in the commanders of the Kearsarge on the eve of her departure for Hayti with Min-ister Douglass on board, coming so quickly on top of the other incidents in conection with the Donglass aff ir, caused little gossip at the Navy Dipartment yesterday morning. Secretary Tracy made a denial of the report that Com-mander Shepard was relieved from the Kearsarge because he refused to sail in This would render him liable to be courtmartialed. Further than this the Secre-

tary would say nothing.

The Kearsarge, with Commander Whiting in charge, sailed yesterday

morning.
The immediate cause of the detachment of Commander Shepard was a com-plaint made by letter to the Navy Dopartment on boing deprived of the use of his cabin without sufficient time to have accommodations prepared for himself in the ward-room with the other officers and asking for information as to how he could dispose of himself and his baggage. Secretary Tracy construed the letter to mean that the Commander was anxious to get rid of his duty, and acoordingly relieved him peremptorily. Persons who know Commander Shepard are of the opinion that he meant no disrespect to Secretary Trucy or Mr. Doug-lass in writing the letter, but he was unfortunate in informing the Department of a matter that could have been settled

The play is the newest thing in Irish comedy and has caught a large proportion of the people who have seen it. It contains plenty of Scanlan's popular melodies. Philadelphia Press says:

The scenery, company and costumes were most ambitions. The play is undoubtedly a popular success and many of the lines commend themselves to the more critical of those present. Mr. Scanlan himself was easy and spoke and moved as confidently as though the part was old to him. The scenery was a fea ture of the production, a conservatory and a scene on the cliff overlooking lake, with the back drop studded with stars, being especially striking,
